A GIFT OF LOVE

I AM THE VOICE OF SUICIDE PRESENTS:

“A CHRISTMAS THAT HEALS”– A Community Mission to Bring Hope to Grieving Families This Holiday Season.

FOR IMMEDIATE RELEASE

12/12/2025 - A Night to Heal, A Mission to Help!

Every year, the holidays become a painful reminder for families who've lost a loved one to suicide or trauma.

The empty chair. The silence. The traditions that will never be the same.

This December, three families in our community are facing that pain head-on:

- **Four young children (ages 2–9)** entering their first Christmas without their mother.
- **A mother** spending her first holiday with one less seat at the table.
- **Another mother** longing to hear her son's voice one more time.

No parent should have to bury their child.

No child should have to grow up without their parent.

And no family should have to grieve alone.

This is not charity.

This is **healing**. This is **dignity**. This is **love in action**.

These families are grieving, overwhelmed, and trying to navigate a pain no one should carry.

Children who don't understand why mommy isn't coming back.

Parents who don't know how to give joy when they're barely holding themselves together.

The holidays magnify their loss.

But together, We can replace grief with grace and pain with purpose.

HOW YOU CAN HELP (IMMEDIATELY)

1. Donate- Every dollar goes directly to gifts, meals, and support services.

Give at: www.iamthevoiceofsuicide.org

2. Sponsor a Family- Cover gifts, meals, or services for a family in honor of someone you love.

3. Provide In-Kind Support- Clothing, toys, meals, gift cards, or professional services.

4. Share Their Story- Tell someone. Post it. Forward it.

Healing multiplies through community.

We are raising funds to provide these families with a full Christmas experience — a moment of peace, joy, and love during the hardest time of their lives.

No amount is too small. Every donation is a seed of hope.

TOGETHER, WE CAN MAKE THIS A CHRISTMAS THAT HEALS.
